

SMARTJETS
Your Journey Starts *Here*

OUR VISION

SmartJets was founded with the singular focus of delivering a simplified turn-key aircraft purchase process for our clients.

We leverage our team's 25+ years of aerospace experience to ensure that you are investing in a business jet that will help you attain your personal and professional objectives. With over \$5B US in transactions during that time, working with major corporations, and leading entrepreneurs, our team stands ready to embark on your aircraft journey with you.

SMARTJETS *STANDS READY TO WORK FOR YOU*

Your time is precious - that's what drew you to business aviation. Our strength is helping you find and acquire, your perfect aircraft to get you flying.

We offer a complete turn-key approach to the acquisitions process. From aircraft identification and inspection; help to secure financing options, negotiation, procurement, and importation; through to return to service. We can also refer you to specialist legal and tax advice, as well as assistance in identifying aircraft management solutions best suited for your use case. Our expertise in all markets makes us the perfect partner for new buyers, customers looking to upgrade, and those looking to sell their preowned aircraft.

ACQUISITION *SPECIALISTS*

SmartJets takes care of the complexity of an aircraft transaction so you can stay focused on what matters to you. Throughout the acquisition, we will provide expert advice that prioritizes your interests and ensures you get the most from the transaction.

The first step is to understand your requirements in terms of aircraft size, range, and budget. From there, we utilize our expert research capabilities to scour our network and identify and present the best options for your consideration.

Once an aircraft is selected, we take care of the valuation before we negotiate on your behalf. Finally, we oversee the pre-purchase inspection, and secure legal and tax support from industry specialists, we take care of registration, and all the requirements for you to begin operating your aircraft.

BROKERAGE

Our customers are at the heart of every transaction we complete.

Whether it's an aircraft acquisition or sale, our first step is to understand your needs. From there, we get to work for you. Through our extensive network, we have the reach to bring buyers and sellers together. Our experience ensures a smooth transaction and with our personalized approach, we guarantee the best possible value.

CONSULTANCY

Aircraft transactions can be complex. From aircraft selection to financing and inspections to registration, there are a number of details to take into account.

As consultants, we bring aviation expertise and peace of mind to your team. Our role is to provide guidance throughout the acquisition process to ensure you get the best price, comply with all regulatory requirements and are prepared to start operating your new aircraft.

WORRY-FREE RETURN TO SERVICE

Our team of maintenance experts will oversee the technical review and Pre-Purchase inspection of your newly purchased aircraft by supervising the process and ensuring your timelines are being respected.

We can also assist with the selection of a management company best suited for your mission profile. They can ensure a worry-free return to service, handle aircraft and crew management, hangaring, as well as planning and budgeting for all upcoming scheduled maintenance events.
